Ronak Lodhari -

SUMMARY

Dynamic and detail-oriented **PHP Laravel Developer** with hands-on experience in developing **AJAX-driven applications, RESTful API integrations**, and secure user authentication systems. Successfully built a comprehensive **Fishing Boat Business Management System** leveraging Laravel's full-stack capabilities, improving operational workflows and data management. Proficient in **MySQL, Blade templating**, and **version control (Git)**, with a strong focus on clean, efficient code and problem-solving under deadlines. Committed to delivering scalable and high-performance web solutions in fast-paced, collaborative environments.

SKILLS

- PHP and Laravel framework
- AJAX and jQuery
- MySQL database management
- RESTful API integration
- Project deployment and debugging
- HTML5 and CSS3
- JavaScript proficiency
- Bootstrap design

EXPERIENCE

Php Laravel Intern

XcelTec Interactive Private Limited *Apr 2024 - Sep 2024*

- Completed training as Laravel developer at XcelTec Interactive Private Limited, a CMMI Level 5 company.
- Collaborated with senior developers to resolve application issues efficiently.
- Optimized database schemas for improved data storage and retrieval.
- Implemented front-end interfaces using Blade templates, Bootstrap, and JavaScript.
- Developed a mini Product Tag Manager project in Laravel.
- Created AJAX country filters in the Global Business Group (GBG) Project.
- Integrated email sending, login/registration, and password reset features.
- Handled user authentication and security functionalities.

Php Laravel Developer

NCode Technologies, Inc - Web & Mobile App Development *Feb 2025 - Present*

- Worked extensively on AJAX-based dynamic features and API integrations in multiple web applications.
- Developed a complete Fishing Boat Business Management System project using Laravel, implementing modules like Boat Management, Crew Management, Fish Types, Catch Reports, Sales & Profit Reports, User Role Management, and Reports Export.

- Contributed to live projects like flashmarket.in, handling user authentication, product listing filters, and email notifications.
- Worked on jobpro.ch, implementing dynamic job filters, application management, and secure authentication workflows.
- Participated in internal tools for AIIMS project, focusing on data management modules and admin dashboards.
- Worked as a PHP Laravel Developer at Ncode Technology, contributing to live projects like flashmarket.in, jobpro.ch, and developing a complete Fishing Management System with extensive AJAX features, authentication, and reporting modules.
